Custom designed systems for cutting edge business advantages.

Table of Contents

OVERVIEW

ID Verification Systems was established in 2006 as a software developing company for the Cargo Industry of South Africa. We have continuously grown from strength to strength and today our client base consists of more than 600 companies in the freight, courier and logistic industry.

IVS builds its business on being quick, smart and reliable. We are committed to constant INNOVATION, sharing our VISION with both employees and clients and creating the ultimate achievement SUCCESS.

With our highly effective business operations, we have the experience to offer both new and existing client solutions based support, irrespective of the nature of your industry.

IVS's ability to function seamlessly across all regions is primarily based on our meticulous, integrated services, management system and our resources such as our network, people, processed and high-end information technology.

At IVS we invest in both technology and people, resulting in highly effective solutions for major role players in the freight and logistics industry of South Africa. We create customized solutions based on our client's needs, helping the client save on costs and providing them with peace of mind.

We are a rapidly expanding organization and we continuously introduce innovations that will change the face of database analysis and design. We have a highly dependable and efficient network, which ensures mutual long-term grown with our clients.

THE BEST FOR YOU – EVERY TIME

At IVS we offer a range of services and our assistance will extend far beyond what is normally expected from a software development company.

- Fully customizable IT solutions providing a seamless flow of information
- Understanding your requirements and building our processes and services around your specific needs
- Delivering practical solutions that optimizes the overall effectiveness of your business
- Giving our growing client base true supply chain visibility and peace of mind that comes with measurable performance indicators

The best solution for YOU every time.

VISION, MISSION AND THE WAY FORWARD

Our Aim is :

To provide a unique product and service that exceeds the industry standards by far and constantly surpasses our client's expectations.

- Understanding our clients' requirements, long term strategy and to contribute to the business success of each and every client.
- Stay focused on customer requirements and assist in obtaining a business advantage above competitors through technology.

INNOVATION, VISION AND SUCCESS : THE IVS WAY

We are a people's company offering a world class service and continuously improving our processes, systems and skills. By employing individuals who are bright and qualified, IVS is able to contribute to the achievement of business objectives for both ourselves and our clients.   As a conscientious employer, IVS provides an environment where every employee is treated fairly and with respect.

We take great initiative to come up with ideas of our own and to supersede those ideas as we grow.

THE BENEFITS
Solutions

The best solutions for you every time. Your business deserves customized solutions and in todays' demanding market we know how important it is to share information that improves business flow.

Recognizing that every client has a unique business, we deliver and provide complete end-to-end solutions to meet your specific needs.

- Hosted Cargo Management Software
- End-to-End Security Management
- EDI Capabilities
- Customized Software Development

The way to go is Cloud Computing

Cloud Computing eliminates the need for costly servers and data storage devices by hosting software and data shared servers, which are accessed remotely via a broadband connection. This means that large upfront capital expenditure on servers and software is eliminated.

The Advantages :

- Automate and consolidate your requirements and reducing your current costs.
- Increase service levels by increasing security, availability and reliability.
- Reduce the effort required to manage, operate and maintain your electronic solutions.

RELATIONSHIPS

ECS International is an IBM iSeries e-commerce solution provide from origin. Nowadays our company is a cross-platform e-commerce solution provider. To put it shortly : we integrate your main applications to the outside world. Fast, safe and reliable. Application Integrators so to speak.

ECS International distinguishes four core activities :

1. Integration and Communication Software
- ECS EDI-XML Software
- Cleo Communications Software
- Adeptia
- Verisign/Thawte Secure Certifications

2. Services
3. Consultancy
4. Detachering

ECS International, your cross-platform communication specialist.

Cleo Communications Software. Platform-independent, proven technology. All your communication issues covered in one application.

Today's magic words – other that EDI and VAN – are security, reliability, AS2 and certified. Cleo Communications Solutions meet the latest requirements and standards.

WHAT OUR CLIENTS HAVE TO SAY

"Since the IVS system was implemented, the management and monitoring of cargo drawers across the country have been simplified."
– World Courier South Africa

"We have been using the IVS system since 2007 with positive results." – UPS SCS South Africa (Pty) Ltd.

"IVS is service provider to SAA Cargo nationally. The versatility of the IVS permit has allowed SAA Cargo to link agent account details to manage drawing."
– South African Airways Cargo

"Again – Thank you for excellent service." – Dachser South Africa

"Thank you for your speedy and professional replies and responses." – GMA Logistics

"I find it an absolute pleasure to work with IVS!!" – LTG Logistics

"Thank you for your continued support – you deserve all compliments." – Mentor Freight Services

"I'd no sooner sent the request then the SMS and email confirmation!" – Kuehne + Nagel

"Thank you so much for the tags that was so efficient and fast – thank you very very much." – Seabourne Express

"Thank you for your quick assistance as always." – Airlink Cargo

IVS is a rapidly expanding organization and we continue to introduce innovations that will change the face of the cargo industry.
